

The Unseen Heaviness

For solo violin and electronics (pre-recorded audio & bypass pedal)

By Max Stoffregen

NOTE: the violin does NOT NEED to be amplified.

Equipment Requirements:

1. **A playback device;** mp3 player, CD player, laptop, etc.
2. **Amplifier;** PA, keyboard or guitar amp, boombox, etc.
3. **Bypass Pedal;** a cheap effects pedal can work as bypass pedal by simply turning the output/input volumes completely down. Or you can use a dedicated bypass pedal.
4. **Appropriate Cables;** requirements for cables will vary depending on Playback Device/Amplifier combination, but you shouldn't need more than two cables.

Setup:

Run the Playback Device through the Bypass Pedal to the Amp.

Performance Notes:

Set the Bypass Pedal to OFF, and press play on your Playback Device when the performance begins. The audio part has 8 seconds of dead space before the content begins. The audio part is timed to line up correctly, and once the performer presses play (and waits 8 seconds), the Playback Device does not need to be used again. For the duration of the piece, all manipulation is done via the Bypass Pedal, and the only thing the performer needs to worry about is pushing the pedal on or off with their foot at the specified time.

dedicated to Noah Strick

the unseen heaviness.

Max Stoffregen

$\text{♩} = 84$ A relentless rhythm emanating from within.
